DETAILED ACTION

Response to Amendment

1. The amendment to the claims filed on 8/3/2005 does not comply with the the regulations for the reason(s) indicated below.

Claims 1-18 will not properly scan. The typing is run together, corrections are hard to distinguish, and there are faxing or printing marks running across the pages. The required item(s) identified below must be timely submitted to avoid abandonment:

The claims page(s) submitted is not acceptable and cannot be scanned or properly stored because:

Papers must be legibly written either by a typewriter or mechanical printer in permanent ink or its equivalent in portrait orientation on flexible, strong, smooth, non-shiny, durable, and white paper. The text must be written in a nonscript type font (e.g., Arial, Times Roman, or Courier, preferably a font size of 12) lettering style having capital letters that should be at least 0.3175 cm. (0.125 inch) high. A font with capital letters smaller than 0.3175 cm. (0.125 inch) high is only acceptable if the writing is clear and legible. Application papers must be presented in a form having sufficient clarity and contrast between the paper and the writing thereon to permit the direct reproduction of readily legible copies in any number by use of photographic, electrostatic, photo-offset, and microfilming processes and electronic reproduction by use of digital imaging and optical character recognition. Claims 1-18 are not in compliance with 37 CFR 1.52(a) or (b).

2. The proposed reply filed on 8/03/2005 has not been entered because it is unsigned. The certificate of transmission is signed, but that does not replace the signature requirement on the amendment itself.

Since the reply filed on 8/3/2005 appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH** or **THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
